THE WEEK'S SCHEDULED EVENTS

offer a Variety of Amusements for the Guests and Citizens of Daytona and vicinity.

Tonight at the Opera House will be presented **Old Parson Hopkins**, a farce comedy, which comes highly recommended by the newspapers of towns in which they have recently appeared. Excellent music by the Imperial Orchestra is promised throughout this show. A dramatic reading by J. Prescott Lanch will be given at The Colonades and a dance will be given at the Armory by Mrs. Spangler's orchestra.

On Tuesday night Congress of Nurses and Ben Hur will be given at the Opera House. The regular meeting of The Grand Atlantic will be held and at The Clarendon J. Prescott Lanch will give a dramatic reading.

The Colonades annual ball, one of the important social events of the season, takes place Wednesday night. On the same date there will be a ball at Keating's Casino and at the Opera House a negro troupe will give a cakewalk.

The Palmetto Club will meet in the afternoon at their Club room. The exercises will be in charge of the Educational Department and an interesting program will no doubt be presented.

The guests of The Palmetto will hold their weekly euchre party Thursday evening in the parlors of that hotel. The Cottage Euchre club will meet at the residence of Mr. Hanson on Cedar street the same night.

Friday night at the Opera House a glee club from the Zanesville Industrial School (Col.) will sing plantation melodies for the benefit of their school. On the same night a magnificent display of fire works will be given on the river, the expenses of this display being paid for by the business men of Daytona. Seeking of this display, which was given in St. Augustine recently by the same company, the Record says: "Waves Willard excelled the others."

Doodles Small Fish.

R. T. Pearson, ex-mayor of Allagany City, Pa., is one of the lucky fishermen, seldom going out without catching some of the big fellows, but there is good reason for this for Mr. Pearson carries with him several "lucky stones" which he procured from the head of an immense drum fish.

Mr. Pearson has just returned from a tour which included St. Petersburg, Miami and Nassau. Last week he secured the largest fish, being a bluefish, on the south beach, of which there is a record, caught here. This one weighed 84 pounds. Not satisfied with that one, he tried again Saturday and landed a 10 pound drum fish. This morning a 9 pound sheep head was secured. This was an immense fish and many people of hotel around to view it.

A Hunting Trip.

J. H. Hanson, J. H. Clark and Leon Davidson left early last week on a launch for South's creek for a big hunting and fishing trip. The party were caught in a severe thunder and rain storm and reached the shore thoroughly soaked by the rain and chilled by the cold. The party found all space around the bottom occupied by gophers in a similar condition and were at a loss to know what to do. The young man in charge of the dredge kindly placed the captain's cabin at their disposal and furnished them with fire and other necessities while they were drying out their garments. Mr. Davidson returned Wednesday but Messrs. Hanson and Clark did not return until Saturday night. They reported having bagged a large number of ducks and geese.

Petty Thieving.

Every dance held at Keating's Casino lately has resulted in the loss of one or more of the many curios displayed on the counters or hanging up for the tourists and visitors to see. The first article to disappear was a thermometer. A sail boat, made from shells disappeared at the next dance. Then several spool figures apparently evaporated. Saturday night some light fingered scoundrel appropriated one of the two bottles which contained full rigged ships. It has been but a few weeks since a cabinet, containing pictures exhibited by a Photographer, was captured with a wren driver and every article restored.

It is surprising that people of such low instincts are able to obtain advantage in any place of amusement and it is to be hoped that they will be apprehended and given over to the turpentine farn.

A Noted Singer Departed.

Miss Du Cagshall, of Astoria Park, New Jersey, who has just closed a successful series of song recitals in the principal hotels of Daytona, left today for Jacksonville. Those who have had the pleasure of listening to Miss Cagshall's extensive repertoire, which embraces almost everything from church music to even songs will remember for a long time the rich tonal qualities of her voice. Her sympathetic rendering of such favorites as "Face to Face," "The Rose Tree" and "The Roseary" received universal commendations.

Miss W. Diddle has been joined at The Ridge-wood by his sister and niece, Mrs. E. R. Diddle and Miss Diddle, of Minneapolis, who will remain here for a week.

THE HALIFAX IN YE OLDEN DAYS.

A Few Interesting Data Culled From the Story of a Prominent Daytona Visitor.

A News reporter was shown yesterday the diary kept by Geo. W. Diddle, who owns houses in New York and Manhattan, during the winter of 1881, which he spent at New Smyrna. This diary contains much important data of events which occurred during February and March of that year.

This was, of course, long before the day of railroads in this section, the residents depending mainly upon schooners for their supplies, mail and information of the outside world. The Diddle seems to have arrived at the time with one of the earliest of mail carriers, the temperature and weather conditions, and the names of many old residents, long since dead.

In the party were Mr. Diddle, Capt. Anderson, owner of the famous Mary Powell, a steamer plying between New York and Albany, and his son, Capt. A. Anderson, now wintering in New Smyrna. These gentlemen were guests of Mr. Lusk, a brother-in-law of Ben. Frank Sams, who owned and ran a hotel just north of the Ocean House, but spent most of the time camping out near Turtle Mound or further south. Next door, directly over the fortress recently unmoored, lived Delph Sheldon, whom the party visited frequently.

Speaking of the reported great change in recent years in the climate of Florida, Mr. Diddle called attention to his temperature records, which showed maximum temperatures ranging from 59 degrees early in February to 86 degrees on February 10th.

References are frequently made to the arrival of schooners owned by Capt. Bigg, which plied between St. Augustine, or Jacksonville and New Smyrna, bringing mail and supplies once a week. Mails were also brought once a week by a negro from Eaton.

Card Party at the Ridge-wood.

A progressive euchre party was held in the parlors of the Ridge-wood last Saturday morning under the able management of Mrs. E. Marmoner and Mrs. L. O. Smith. Ten tables were brought into service to accommodate the players.

Mrs. Foster secured the ladies' first prize, a cut glass dish. Miss Jenkins and Mrs. H. M. Du Plan were awarded the second and third prizes, the former receiving a gold hat pin and the latter a gold stick pin.

W. C. Shepherd, for playing the best lone hand, was awarded an electric hand lantern. Mr. Du Plan secured an appropriate consolation prize, a pipe with which to solace himself.

Mrs. Marmoner, who played a gentleman's hand, won the gentlemen's first prize, a silver mounted watch. C. Allen and Dr. P. G. G. Weiting secured prizes, the former's being a silver match box and the latter's a gold stick pin.

Yacht Kingfish in Port.

The auxiliary yacht Kingfish, belonging to the Royal Fishermen's fleet arrived in port last night with Capt. H. W. C. Crawford commanding. The yacht is one of the two new boats built for the fleet last summer and is one of the finest small vessels which has visited the port this year.

On board the yacht were Capt. and Mrs. J. A. Crawford and wife, Toronto; O. F. R. Smith and wife, Buffalo; R. Sample and wife, Albany, N. Y.; Miss Louise Hawkins, Milton; Mr. E. C. Foley, Springfield, Mass.; Wm. G. McLanahan, St. Louis; Mrs. J. S. Fisher, Miss Mary G. Milligan, J. W. Milligan, Princeton, now guests of The Colonades.

W. H. Robinson and wife, North Dakota; W. H. Robinson and wife, New Haven, Conn.; John H. Shipman, Dayton, O.; W. F. Moore, Philadelphia; S. N. Robinson and wife, Watford, Richard, Toronto, Wakefield, Pa.; J. J. Driskoll, St. Joseph, Mo.; R. H. Thompson, New York; Mr. and Mrs. C. A. Hughes, Miss Edna Hughes and John Hughes, Philadelphia; H. Harmon, Altoona, Pa.; Miss Elizabeth A. Hall, Lansing, Mich.; W. H. Shepherd and wife, Wilkes-Barre, Pa., are guests of The Ridge-wood.

C. H. Chandler, of Pittsburgh, a former guest of The Seaside, has returned and will spend the balance of the season there.

A Chicago family of prominent social people at The Seaside is Mr. and Mrs. John J. Krer, Miss Laura and Evelyn Krer and Mrs. J. A. Kleinfelder.

Rev. Father E. J. McGrath, and Mrs. McDonald, of Brooklyn, entertained Father McGrath at supper at The Ridge-wood Saturday evening. Father McGrath delivered an excellent sermon Sunday morning at the Catholic church.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

tion of the crowds as it sparkled with hundreds of brilliant lights and kicked in unison with the Roman candles that discharged from various parts of the figure. The success of this piece, however, was dwarfed by the battleship, Olympia, which was outlined in lines of fire of many hues. From every part of the ship burst sheets of flame, Roman candles and rockets, making a very realistic picture of a warship in action.

prise. Captains Dummet and Pacetti, who also operated schooners, are mentioned frequently, as is also Capt. Bennett, who commanded the schooner Rover.

Great numbers of pelicans and cranes were killed for their plumage by the party and fish were caught in such numbers as indicate this section to have been a fisherman's paradise at that time.

Numerous instances are recorded of 25 to 30-pound bass having been landed, one day 20 being caught which averaged 25 pounds. Deer, bear, wild turkey and quail were abundant where Daytona now stands and where towns have been built between here and the ancient town of New Smyrna. Wild cattle roamed the swamps and were shot down when meat was needed.

The port was of such importance at that time that the government had as collector of the port Maj. Alden, a popular and pleasant gentleman, who had his boats and gang of negroes to row him out to visit incoming vessels. This was before the day of a bridge, for there were no residents yet on the peninsula.

On March 6th the party, in charge of Capt. Anderson, visited what was styled the colony, the people of which were living in tents and palmetto huts, while they were preparing to lay out a town and build where Daytona now stands. The land lying between the river and where Ridgewood avenue is now is described as inexpressibly wild, the underbrush being almost impassable. Deer and bear roamed at will where now are to be seen beautiful streets and fine homes.

Swift Bros., of New Bedford, were in this section at the time getting out live oak timber, on a contract with the government, for building war vessels, steel not having yet displaced wood.

An amusing incident of the trip home noted in the diary is that the steamer City Point, which ran between Palatka and Charleston, stopped at Fernandina for about three hours to allow a couple of the passengers aboard to be married, after which the journey was resumed.

Mrs. C. R. Cox is visiting her son at Ft. Lauderdale.

Okano Gamato Danji, of Tokio, Japan, delivered a lecture brimming with patriotism and eloquence on the Russo-Japanese war and the customs of his country, at the Grand Atlantic last night. A collection was taken up which the speaker stated went, after defraying his expenses, to the Red Cross Society, of Japan.

The Daily News rounder enjoyed the hospitality of Benford Deacon Sunday in a ride in that gentleman's launch to the Inlet. While at the latter place both gentlemen enjoyed a dinner with Mrs. Pacetti, near the Inlet. This estimable lady knows just how to tickle the palate of the hungry and her dinner on Sunday was no exception to the rule.

THE CRIMINAL SQUIRREL.

He is a Thief and a Murderer and a Forest Destroyer.

I wish to take away for all time the character of the squirrel. He is a thief and a murderer. Admired by ignorant city people and by journalists, he devotes his life to eating the eggs and killing the young of harmless and useful birds, which, if permitted to live and increase, would protect the forests from harmful insects. By killing these birds the squirrel takes rank as a forest destroyer. Moreover, the red squirrel is not the only sinner. In my opinion the gray is almost, if not quite, as bad.

I have killed many squirrels caught in the net of eating eggs of young birds. Any bird that selects a nesting place which is also adapted to the use of squirrels is almost certain to be ejected. When a forest has been destroyed by fires, lumbermen or insects, it is almost impossible for natural reforestation to take place if squirrels are abundant in an adjoining tract, because they eat the seeds. Fifty seeds per head each day would be a low estimate. Yet even this would make 18,250 in a year. And seeds are not the only thing. In winter the ground is often strewn with twigs that have been stripped of buds by squirrels. The trees attacked are generally situated at the border of a dense forest and would, if left alone, yield the greatest seed crop. A single squirrel thus destroys in one day thousands of seeds in the germ. In Montana I have seen the grays rob birds' nests.—Country Life in America.

Bee Hunting in Adirondacks.

There is a charm about bee hunting peculiar to this particular spot, and it can be enjoyed wherever bees locate. There were flowers about the camp, over which we had often noticed honeybees hovering, and the guide said he had been watching their maneuvers and it was about time to give them a chase. Our outfit was very simple, consisting of a box about four inches square, divided into two parts by an ordinary slide, the lower compartment containing a piece of bread or honeycomb saturated with a sirup made of sugar and water boiled. The slide was pushed into place and the decoy was ready for the bee family. It is easy to trap a honeybee if one only knows how.—Leslie's Weekly.

A Thoughtful Empress.

One evening Catherine II. of Russia had dined in one town and was to return to her palace in another some miles distant. These journeys were made with much ceremony and magnificence. The great sleighs were ready to start for home. Catherine sat alone in the imperial sleigh. She inquired if the drivers and the footmen had had dinner. Receiving a negative reply, she at once left her sleigh. "They have as much need of dinner as we," she said to her party. And she waited patiently until the servants had dined.

A man must be both stupid and uncharitable who believes there is no virtue or truth but on his own side.—Addison.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between the source at Bayview and its outlet at Mosquito Inlet. It is in latitude 29° twenty four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by a growth of a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palms, plumb trees, magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the angelopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all too feet wide, except Beach street, which is about sixty five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shelled roads and streets, rendering it the

Wheelman's Paradise
Added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
That have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to these searing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lido Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach,

which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 200 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected or homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
